

Energy of STEM

Energy of STEM is returning to in person format this year! During the camps, students will have the opportunity to explore concepts around Aerodynamics, Physics, Coding, Energy, Electronics and more! The camps will include demonstrations and lessons, hands-on projects and group-work, and time for connecting and sharing with peers in a fun, engaging environment. Activities will be led by SoCalGas employees with support of USC Viterbi Center staff and USC students.

Eligibility

Students who will be in 3rd-5th or 9th-12th grade in the 2022-2023 school year.

Dates

July 18-22, 2022

Time

9AM-3PM

Apply by May 15:
